

Using Multiple and Custom Mirror Stamps

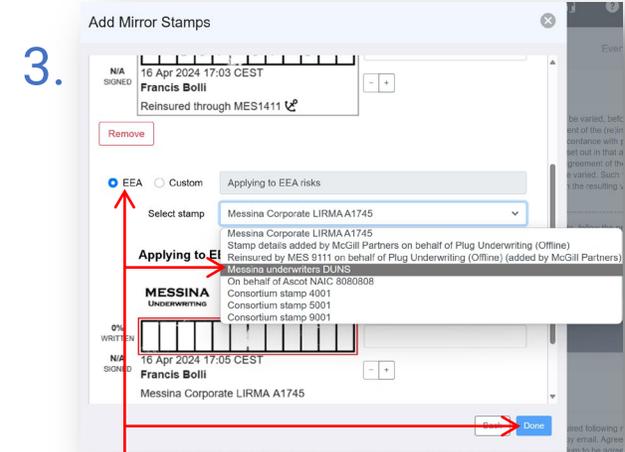

1.

Underwriters: Open the contract and click the 'Add a written line' bar to add a line with custom and/or multiple mirror stamps.

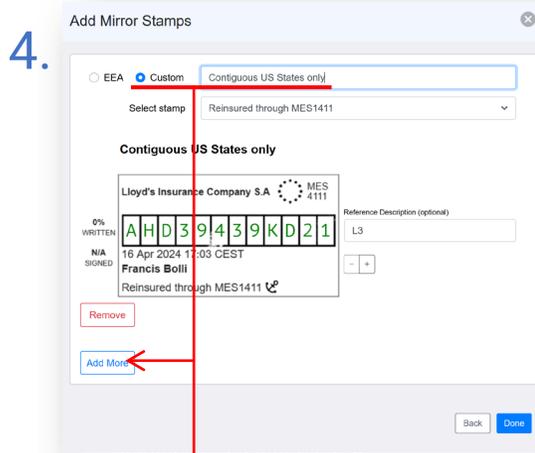

2.

Select a stamp as usual and fill in the relevant details, and then click the 'Add Mirror Stamps' button.

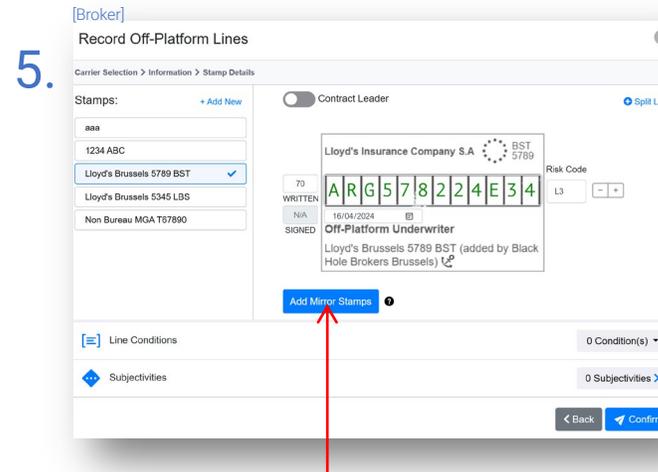

3.

Select the stamp to be used as the new mirror stamp from your stamp list. Each stamp may be used once per written line, but only one may use the default EEA description.

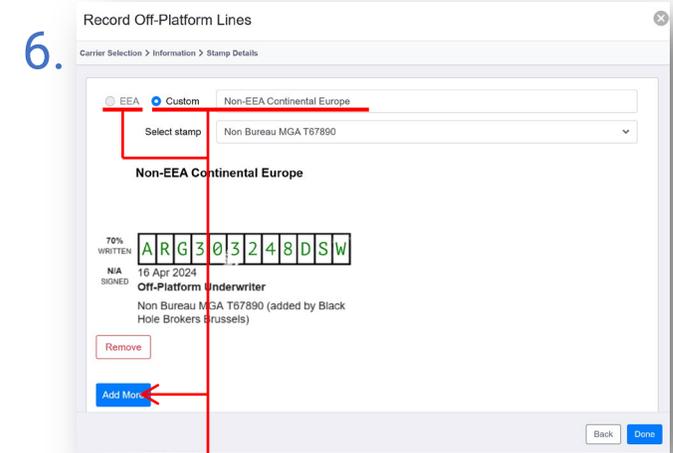

4.

For a custom mirror stamp, click the 'Custom' radio button and enter the custom stamp description. Click 'Add More' for multiple mirror stamps. Click 'Done' to save.

5.

Brokers: Click 'Add Mirror Stamps' when recording an off-platform line to add custom and/or multiple mirror stamps.

6.

Custom description, multiple mirror stamps, and the old EEA mirror description are all accessible. Please note that freshly-created off-platform stamps are not available for use as mirror stamps.
